System Features

Master Data Management

Easily set up and manage all the key information your business needs:

- + **Company & Branch Settings** – Manage multiple companies and their branches.
- + **Locations & Warehouses** – Keep track of stock in different warehouses or stores.
- + **Users & Roles** – Add new users, assign permissions, & reset passwords when needed.
- + **Clients & Suppliers** – Add, edit, and manage customer and supplier records.
- + **Banks & Accounts** – Manage bank details and electronic accounts.
- + **Other Master Data** – Define expenses, industries, billing types, checklists, client sources, and more.

Product & Stock Management

Keep full control of your inventory with powerful product features:

- + **Product Setup** – Create and manage products, categories, brands, and tax groups.
- + **Pricing Tools** – Update prices, export price lists, track cost history, and set reorder levels.
- + **Barcode & Labels** – Print product barcodes, warranty stickers, & adjust barcode settings.
- + **Stock Management** – Track stock across locations, update expiry dates, and adjust stock when needed.

Purchase & Supplier Management

Simplify your purchase process:

- + **Purchase Orders (LPOs)** – Create, edit, and approve supplier orders.
- + **Goods Received Notes (GRN)** – Record incoming stock, edit or cancel GRNs, and handle quick pricing.
- + **Supplier Payments** – Record payments, outstanding balances, and opening supplier accounts.
- + **Stock Transfers** – Move products between branches or locations with approval controls.
- + **Manufacturing & Adjustments** – Record stock manufacturing, expenses, and stock adjustments.

Sales & Customer Management

Handle all customer sales smoothly:

- + **Quotations & Orders** – Create proforma invoices, sales orders, and quotations.
- + **Sales Invoices** – Generate invoices recurring bills, credit notes, and fiscalized receipts.
- + **Client Payments** – Record advance payments, outstanding balances, and credit approvals.
- + **Discounts & Promotions** – Apply discounts, issue credit notes, and manage loyalty/royalty cards.
- + **After-Sales Controls** – Cancel invoices, resend receipts, and manage returns.

Reports & Analysis

Stay on top of your business performance with detailed reports:

- + **Stock Reports** – Stock levels, expiry reports, batch-wise stock, location stock, and product history.
- + **Sales Reports** – Daily, monthly, and user-wise sales; audit trails; commission and department reports.
- + **Client Reports** – Client history, ledger, monthly summaries, and outstanding balances.
- + **Supplier Reports** – Payment history, outstanding balances, and supplier ledger.
- + **Accounting Reports** – Cash summaries, receipts, and branch-level financial reports.

Utilities & Data Management

Easily move data in and out of the system:

- + **Import** – Products, clients, stock, prices, and outstanding balances.
- + **Export** – Product lists, client data, sales reports, and more.
- + **Backup System** – Keep your data safe with regular backups.
- + **License & Notifications** – Get alerts on license renewals and system updates.
